Zoom Vs Panopto for Lectures

Zoom has Live Interaction

Zoom cloud recordings available for 120 days

Can password protect Zoom recordings but unable to lock down to specific individuals

Zoom is easy to use

Zoom has Immediate feedback and collaboration

Can view Zoom recording analytics but only counts views not duration and correct steps must be taken to see names

Panopto: Recorded or large non-interactive webinar

Panopto recordings available indefinitely

Using Panopto with Course Site: specific access given to only those enrolled

Panopto had a Learning Curve

Students who are logged into Panopto can rate videos, add bookmarks, or add comments

Can add a viewing comprehension Quiz

Review who has watched and duration
